Annual Dedicated To Mr. L. V. Jones

One of the qualities that most endears an individual to others is friendliness. Whether issuing large stacks of textbooks to teachers or delving through volumes of computerized forms, Mr. Lester V. Jones always manages a reassuring smile for those with sinking spirits.

Mr. L. V. Jones began his career at Tech as an instructor in the Radio-TV Department

in 1960 after obtaining his B.S. in 1950 and M. Ed. in 1952 from T.W.C. He was next promoted to Co-ordinator of Instruction in 1961 and most recently was named Consultant in Vocational Education in October, 1968.

The 1969 Green B annual staff takes pride in dedicating this yearbook to Mr. Lester V. Jones.

Mr. A. B. O'Connor Is Responsible For Much Of School Year's Success

Mr. O'Connor has put much time and effort into making Trimble Technical one of the finest technical schools in the nation. He is respected by all the students and gives them the incentive

needed to complete their studies. This is Mr. O'Connor's fourth year as principal of Tech, and it has proven to be one of the school's finest years

Office Workers Help To Operate Tech Efficiently

Pictured on this page are four ladies who are responsible for much of the success of a school year. These ladies are in charge of the bookkeeping and clerical work at Tech.

One of the most indispensable women at our school is Mrs. Peggy Miller, the secretary to the principal. If there is a question left unanswered and the "man" cannot be found, she is always there to help.

MR. ANDERSON, SENIOR counselor, goes over one of the new computer data forms with one of the students.

To be a good counselor, one needs intelligence, determination, drive, patience, and a great amount of time. Time is essential in keeping massive files on all the many Tech students.

The Reserve Officers Training Corps, better known as the R.O.T.C. to high school students, is one of the world's largest military teams. ROTC teaches the cadets safety and marksmanship with fire arms; it also teaches how to organize squad and platoon teams, and to execute military tactics in such a way to capture enemy strongpoints.

ROTC teaches the cadets principles of leadership, and provides them with the opportunity to assume the responsibilities of command at an early stage of life. They are also taught to respect a constituted authority, and to be courteous and orderly at all times, wherever they are. Almost 65% of the United States military team has had R.O.T.C. training.

Advancement and Promotions: Each cadet is given the opportunity to rise through the ranks according to his own ability. Each cadet is taught the ways and means by which an army company is commanded. One must also show development in military concerns, but he must also show growing characteristics such as integrity, leadership and moral character. As a sophomore, the average cadet should progress from a private to a sergeant, and in some cases even to staff sergeant. Sophomores are classified as Military I's. Juniors or Military II's, retain their sophomore rank and progress as far as possible to a 2nd Lieutenant. As an officer and a senior cadet, the Military III's responsibility is to help train the juniors and sophomores and to aid the Commandant.

Each R.O.T.C. unit is composed of several groups vital to making the corps a success. One such group is the Drill Team. The Green Knights have held exceptionally high honors for the past three years as city champions. Last year, our team retained the all city trophy from its circulatory pattern after three consecutive years of hard work and team co-operation.

The unique quality of it all is that there are no commands given at any time during the fancy drill. The requirements are stiff to become a member of the Green Knights; among these are having grades of "B" average and "S" citizenship. Members are also required to be at school at 7:15 A.M. every morning; if they work they must be able to get off for competition.

To be a member of the Rifle Team, one must maintain a "B" average, be of high moral standing, show leadership ability, dependability, conduct himself fittingly, and be regular in attendance.

The boys are taught that marksmanship is a skill as well as an art. Those who are able to meet the scholastic requirements and have the skill may join the Rifle Team.

Uniforms and Equipment
Each cadet has at his disposal several hundred dollars worth of equipment and uniforms. At the beginning of each school year each cadet is issued two khaki uniforms, complete with insignias and accessories. Then when winter begins, he is issued a wool uniform, which is sometimes known as winter greens. These uniforms cost the cadet nothing unless he is careless and loses or misplaces them. Along with the uniform, the cadet is issued a rifle which he is responsible for, and he is given several manuals on subjects concerning ROTC.

Future Business Leaders Of America is one of the most active clubs at Trimble Tech. All students taking any business course are able to join. Tech is always represented by delegates from our school in various contests at conventions on district, state and national levels. Our chapter of FBLA sponsored a "get acquainted" party in the fall for its members, and at Christmas they got together at Mrs. Wardrop's house, one of the sponsors, to decorate and celebrate the joyous season. Members of the club enjoyed a field trip to a local bank to get a better understanding of the business world. Also, this year all students at Trimble Tech were invited to hear a guest speaker who spoke to FBLA members about the opportunities in today's fast moving world of business.

Marketing And Distribution Objective Of DECA

Our Distributive Education program is to aid in preparing and equipping its participants for the ever-quicker pace of the business world. Through on-the-job training students gain knowledge in the field of distribution, learn more about people and how to maintain a friendly relationship with them, and discover the many responsibilities involved in a working world.

The DECA organization provides opportunities for members to work together, as well as individually. District and national conventions enable them to display their talents and abilities, thus beginning their flight up the endless stairs of a competitive career.

The American way of life is one of our greatest and most precious heritages. The determining factor for the success of America has been education. In this day of space travel and supersonic speed, education has become an even more demanding requirement in today's vast and complex society. The seniors have traveled a long road to receive their diplomas, but the rewards will justify the means.

The seniors of Green B. Trimble Technical High School have nearly achieved the culmination of the road of high school labors, but the road to life lies just ahead. Our seniors have proven themselves adjusted and mature enough to accept the challenge of life. They have matured into well-adjusted, responsible adults, since their first awesome days as timid sophomores.

Junior Leaders Perform Duties Throughout The Year

JUNIOR CLASS OFFICERS this year are Richard Dominguez, president, Tim Baldwin, vice-president, Virginia Rios, secretary; Candy Ibanez, treasurer; Diana Ragland, reporter.

Spirited is an apt description of the Junior Class this year. They have displayed creativeness and initiative in their efforts to promote school spirit and raise money for their class.

Juniors provided an array of colorful balloons which were released to drift through the victorious atmosphere of the Homecoming last fall. Ranch Day brought still further opportunities for more fun and funds when this out-going group set up the Hitch'n Post, complete with Marry'n Sam

JUNIOR CLASS SPONSORS are Mr. McIntosh, Mrs. Middleton, Mrs. Snider, and Mr. Stebbins.

Energetic Leaders Chosen To Lead Sophomore Class

THE OFFICERS OF the Sophomore Class of 1968-1969 are George Lindsey, President; Herlinda Elizondo, Vice-President; Mary Alice Willars, Secretary; Olivia Castillo, Treasurer; Sue Plemister, Reporter; Elizabeth Macias, Parliamentarian.

Sophomores of Trimble Tech were thrilled and in a daze as they entered the halls of Trimble Technical High School. Here they began to prepare themselves for their futures.

They will be acquiring the knowledge and developing the characteristics of leadership to be leaders now and in their junior and senior years.

The sophomores accept the responsibilities and challenges of a high school and are able to lead Tech forward now and in the future.

SOPHOMORE CLASS SPONSORS for 1968-69 are Mr Powell, Mrs. Curley, Mrs. Eisenmann, and Mr. Rosa.

Judges Select Caviness And Humphreys As Most Attractive Seniors Of '69

Beauty is somewhat difficult to define. Different qualities are beautiful to different people. In order to keep popularity from entering a special contest to determine the most attractive senior boy and girl, thirty adults from various professions who have no connections with any of the nominees were asked to vote for one boy and one girl as most attractive. Selections were based solely on the attractiveness of the nominees as photographed.

MISS TECH OF '69 Rachel Oyervides

"Rachel is a lovely student with a sweet disposition."

"She is a very good 'A' student who actively participates in various school and class projects."

"good attitude, neat, lovely personable, and a bit shy."

"active in accomplishing things for her school and the Senior Class."

Rachel works well in class, and is a delightful asset to any gathering.

Since the faculty selects Mr. Tech and Miss Tech by secret ballot, the annual staff asked various teachers to comment on all of the nominees. The above comments were made about Rachel Oyervides, the young lady selected Miss Tech of 1969.

Rachel has been an extremely active student during her three years at Tech. She has served as an officer in such organizations as Red Cross, vice-president; OEA-Data Processing, treasurer; Senior Class, treasurer. She has also been active in Future Teachers of America, Student Council, and as an ROTC sponsor. Rachel has also been a Homecoming Princess, Mardi Gras Princess, and ROTC Queen.

Rachel, who is a Data Processing major, enjoys miniature golf and bowling. She plans to attend Laramie County Junior College after she graduates from Trimble Tech.

MR. TECH OF '69

Jay Runyon

"Jay has become a young adult who has developed the ability to make decisions in keeping with the traditions of an outstanding Tech graduate."

"As Student Body President, Jay has had an opportunity to demonstrate his willingness to work and make use of his exceptional sense of humor."

"He is a person of many talents—athletic, academic, and skill. He has used this ability to become an outstanding student."

"...has a good sense of humor, and is extremely witty."
"...intelligent with keen insight."

The above comments made by faculty members who know Jay Runyon well very aptly describe this promising young man. Jay came to Tech from W. C. Stripling Junior High because he wished to receive a technical education in drafting and engineering. An ace sportsman, Jay has lettered in football for two years, and was the football captain for a year. In addition to being Student Body President, he has also been active in Allied Youth and the Student Council.

Jay's hobbies include fishing, baseball, football, pool, and girls. When asked about his future plans, he replied, "I want to become a mechanical engineer or a policeman."

Mr. And Miss Tech First Runners-Up

Gary Stevens

"Gary has an excellent scholastic attitude and is well-liked by his classmates and teachers."

He is very clean-cut with high standards and good principles which make him an asset to Tech."

"... very cooperative and anxious to please"

Gary Stevens came to Tech from Haltom Junior High because he wanted to take a computer course. An honor roll student, Gary recently was selected by his classmates as "Most Likely to Succeed." A member of OEA-Data Processing, his hobbies are fishing, hunting, and skiing. Gary plans to attend TCU to become a computer programmer

"Zina has gone beyond the call of duty to advance the school as a whole"

"She is a very dependable, cheerful, and willing worker

displays an excellent attitude toward all."

Zina, a Data Processing major, has been very active at Tech in chorus, OEA, FBLA, and the Student Council. As a member of the Techettes, a singing group, she has performed at many assemblies. Zina's hobby is music, and she has a great love of nature. A member of the National Honor Society, Zina plans to attend Berry Nazareth College to major in general education and church music

Zina Lambert

Randee Paur

"Randee has a flair for fashion and radiates an exotic air."

creative, imaginative, and very sensitive with aesthetic ideals."

"Randee is interested in all school activities and does much extra work for the school. She does much art work for various clubs and programs."

Randee Paur has been quite active in FIA Student Council, Red Cross, VICA, and as a cheerleader and annual staff member. Her outstanding art work is known throughout the school. She has received many honors, including "Best Dressed" and a nomination for "Most Attractive Senior."

Deciderio, as Senior Class President, has strived to keep the philosophy of our school in mind.

easy to work with due to his congenial personality and willingness to do his part."

friendly and capable young man."

An engineering & drafting major, Deciderio has participated in the National Honor Society, VICA, FIA, and Student Council. In addition to being selected Senior Class President, he has received a Leonard's Star Award, DAR Award, and various attendance and citizenship awards. In the future Deciderio hopes to go to college to receive a degree in engineering.
